Kingfol Zinc 70

Omex, UK flowable foliar products

Bio 20

Bio 20 is based on Sea weed extract and has pH (10% solution) 4.0-5.0. Hence, it is ideal for supply of Auxin and Cytokinin for better photosynthesis.

Benefits :

- It helps plants to relieve stress caused by climate change.
- It helps for better flowering & fruit set.
- It helps in development of white roots for better uptake of nutrients & water.
- It helps in building energy to plants for better photosynthesis, which helps in increasing crop production.

Dosage : Foliar spray at 1-2ml/lit.

Kingfol Zinc 70

Kingfol Zinc 70 is based on Zinc (as Zn) Wt/Vol 70%. It is ideal for even plant growth with stimulation of enzyme activity within the plant.

Benefits :

- It is formulated with suspension emulsion technology.
- It helps in stimulating white roots for better plant nutrient uptake.
- It is a remedy for zinc deficiency.
- It disperses easily with no need for pre-mixing.
- It is widely tank-mixable with agro chemicals.

Dosage : Foliar spray at 0.5 ml/lit.
